Dear Colleagues,

ISN's biennial World Congress of Nephrology (WCN) is the premiere educational event in nephrology which rotates between continents and is organized in collaboration with local and regional nephrology societies. The congress is targeted to the international nephrology community as well as other healthcare professionals involved in multidisciplinary nephrology care, thus enabling professionals from all parts of the world to exchange views on a wide variety of topics affecting nephrology and those suffering from kidney disease around the world.

By bringing together practicing physicians, academics, scientists, international health authorities and clinical researchers, each Congress offers a unique global forum for a free exchange of science and medical strategy and is aligned with local and regional reflections under the overall congress theme.

WCN aims to advance the education of physicians and other professionals, support the development of renal research, and facilitate the delivery of high-quality healthcare worldwide. Since ISN's first congress in 1960, WCN has provided vital guidance and support to advancing nephrology around the world.

This edition of the World Congress will not only deliver the most recent innovations but also state-of-the-art knowledge that is relevant and adapted to renal care practice throughout the world where delegates benefit from practical, practice changing and concrete takeaways. It will feature a groundbreaking program with world renowned faculty, authoritative and innovative keynote lectures, scientific theme tracks, industry lunch symposia, poster sessions, an integrated industry exhibition, and last but not least magnificent social networking events full of culture and culinary delights.

On behalf of the International Society of Nephrology (ISN) and the Sociedad Latinoamericana de Nefrología e Hipertensión (SLANH), we are pleased to invite you to participate in the ISN World Congress of Nephrology 2017, taking place April 21-25 in Mexico City. This congress, uniquely placed as a truly global meeting, and under the broad theme of "Sustainability & Diversity", will be the first international nephrology congress to focus on diabetes and kidney disease, a worldwide problem.

A special package exclusively available to ISN Affiliated Societies, which has been produced to enable our partners to participate in WCN 2017, is described in the attached document. Join us in April 2017 and network with around 175 speakers and up to 5,000 expected participants from over 120 countries, along with the chance of visiting one of the most beautiful and varied cities in the world.

We look forward to meeting you at the ISN Affiliated Society Meeting at WCN 2017!

With our best regards,

Prof. Adeera Levin

ISN President and Congress Chair

Prof. Kai-Uwe Eckardt

Scientific Program Chair

Prof. Ricardo Correa-Rotter

Local Organizing Committee Chair
